

Airport XR Companion Current UI Wireframes

Exact iPhone 17 simulator screenshots captured July 19, 2026 from the current AirportXRCompanion build.

Capture mode: automated walkthrough. The walkthrough banner is visible because the screenshots are direct simulator captures rather than reconstructed mockups.

#	Screen	Visible purpose	Screenshot
1	Journey	Current layover overview, weather cards, active gate, and persistent Return to Gate action.	journey.png
2	Flights	Ordered itinerary editor with flight cards, refresh/edit controls, and bottom navigation.	flights.png
3	AR Guide	Turn-by-turn AR guidance with current maneuver, movement preview, and route controls.	ar-guide.png
4	Map	Terminal map with current position, route, selected landmark, route steps, and gate-return control.	map.png
5	Layover & Transit	Layover planning screen with facility filters, selected plan, spend panel, and return control.	layover-transit.png
6	Settings	Traveler profile and document-pre-fill area with country, passport type, purpose, luggage, and document input.	settings.png

Screen Set

- Journey, Flights, AR Guide, Map, Layover & Transit, and Settings are included.
- Images are embedded from the simulator PNG files in Documentation/Screenshots/2026-07-19-current-ui-wireframes/final.

1. Journey

Wireframe reading: Current layover overview, weather cards, active gate, and persistent Return to Gate action.

6. Settings

Wireframe reading: Traveler profile and document-pre-fill area with country, passport type, purpose, luggage, and document input.

The image shows a mobile application interface for a travel app. At the top, the status bar displays the time 2:54, a black pill-shaped notch, and icons for cellular signal, Wi-Fi, and battery. Below the status bar, the header area includes 'Tour 7 of 8' on the left and a 'Close' link on the right. The main title is 'Preferences', with a subtitle 'Adding budget, recovery, and accessibility needs'. Below the title are two buttons: 'Pause' and 'Next'. A horizontal line separates the header from the main content area. The main content area is a light gray box with rounded corners. It contains a form with five rows, each with a label and a value: 'United States' (country), 'United States' (country), 'Passport type' (Ordinary), 'Purpose' (Tourism), and 'Luggage' (Checked Through). Each row has a small chevron icon on the right. Below the form, a note states: 'Only the details needed for travel planning are saved.' Below this is a section titled 'Add a document' with a button that says 'Choose document photo' and a small icon of a document with a checkmark. Below this is a section titled 'Declared visas or permits' with a large red button that says 'Return to Gate' and a small icon of a person walking. At the bottom, there is a navigation bar with five icons: a plane (Journey), a magnifying glass (Flights), a square with a plus sign (AR Guide), a map (Map), and a circle with three dots (More).
